EDUCATION

Purdue University, Daniels School of Business (GPA: 3.71)

West Lafayette, IN

B.S Business Analytics and Information Management | Finance

August 2023 - May 2027

Relevant coursework: Corporate Finance, Management Information System, Investment Management, Venture Capital, Predictive Analysis, Financial Management

WORK EXPERIENCE

Phu Hung Securities Corporation

Ho Chi Minh, Vietnam

Research Analyst Intern

June 2024 – August 2024

- Applied financial acumen to analyze present and future financial performance of 10+ Vietnamese-listed companies across banking, real estate, and consumer sectors, evaluating KPIs including P/E, P/B, ROE, ROA, ROS, and Debt-to-Asset ratios to establish benchmark thresholds that support investment decision-making and sector coverage reporting.
- Built full-cycle DCF models for 5-year equity valuation incorporating WACC via CAPM, CapEx schedules, and NWC changes from FY2020–2024 financial statements to deliver target price recommendations with sensitivity analysis for senior analyst decision support.
- Responded to ad-hoc requests from senior analysts and internal stakeholders, synthesizing 6 market indicators (RSI, MACD, Bollinger Bands, 20/50/200-day MAs) via SSI iBoard to identify critical information and deliver structured performance reports across 10+ client portfolios to support decision-making.
- Assisted in forward-looking analyses and supported forecast cycles by producing 8 weekly sector performance reports synthesizing macroeconomic trends and company-level financial data, proposing recommendations for improvements to data collection and reporting methods across 3 key Vietnamese market sectors.

VI NA ONLINE DOCUMENTS LLC (VDOC)

Ho Chi Minh, Vietnam

Operation Analytics Intern

May 2025 – June 2025

- Optimized document processing and financial reporting workflows, reducing manual processing time by 40% and improving operational efficiency across a 50+ person organization.
- Automated data collection and reporting pipelines to enhance data integrity and enable more timely, reliable business reporting for internal stakeholders.
- Structured and operationalized a centralized knowledge base from 300+ records, achieving 95% accuracy and improving data accessibility to support internal decision-making processes.

PROJECTS

Cummins Case Competition

West Lafayette, IN

Case Team Leader

January 2025 – April 2025

- Led a 6-person cross-functional team analyzing Cummins Inc.'s compliance roadmap for EPA 2030 GHG emissions regulations, delivering a final investment recommendation to a panel of industry judges within a 3-month competition timeline.
- Built 15-year NPV models across three engine technology pathways — X15 (\$379M NPV), X15 Expansion (\$911M NPV), and X15H Hydrogen (\$2.49B NPV) — incorporating revenue projections, COGS, EBITDA, CapEx, NWC changes, and a 15% discount rate to evaluate long-term financial viability.
- Identified X15 Expansion as the optimal near-term compliance strategy, balancing a 30% volume growth rate against X15H's higher NPV but requiring \$100M/year CapEx and unproven hydrogen infrastructure at scale.
- Stress-tested NPV outcomes across $\pm 15\%$ variations in regulatory timing and capital costs, quantifying downside risk to support investment decision-making under EPA policy uncertainty.

Mutual Fund Portfolio Strategy Management (Vietnam Market)

January 2026 – Present

Personal Project

- Constructed a 10-year Vietnamese mutual fund portfolio across 5 funds (VCBF-BCF, DCDS, VESAF, MAGEF, SSISCA) using a core-satellite allocation strategy, balancing 55% in stable blue-chip/active funds and 45% in growth and quality satellites.
- Modeled 3 return scenarios (12%, 15%, 18% annual) using monthly compounding with a 20% annual budget escalation, projecting portfolio growth from \$12,000 total contributed capital to \$25,000 – \$40,000 over 10 years.
- Engineered a dynamic DCA system with market-condition-based deployment rules (30% on red days, 25% sideways, 20% on green days) to systematically lower average cost basis across banking, technology, consumer, and retail sectors.

LEADERSHIP AND INVOLVEMENT

Vietnamese International Student Association

West Lafayette, IN

Senior Advisor (Former treasurer)

April 2024 – Present

- Provided proactive outreach to 200+ Vietnamese international students, advising on budgeting strategy and fund allocation for 3 large-scale cultural events annually, identifying additional opportunities to maximize fund utilization for an organization of 200+ Vietnamese international students at Purdue University.
- Generated and managed \$1,200 in annual event revenue across 5 events, designing budget frameworks to maximize fund utilization with zero external organizational funding.
- Mentored incoming executive committee members on reporting practices, reimbursement processes, and budget tracking, ensuring operational continuity during leadership transition.

SKILLS AND CERTIFICATIONS

- Finance & Analytics:** DCF Valuation, WACC/CAPM, Fundamental Analysis, Technical Analysis (RSI, MACD, Bollinger Bands), Portfolio Construction, Scenario Analysis, Financial Statement Analysis.
- Technical Tools:** LSEG workspace, PitchBook, SQL, Tableau, Microsoft Excel (advanced functions, pivot tables, financial modeling), Microsoft PowerPoint, Microsoft Word.
- AI & Automation:** N8N Workflow Automation, AI Agent Development, ChatGPT/LLM Integration, Automated Data Pipeline Development
- Udemy Certification in Applying AI Intelligence to Investing and Analysis.
